

TRAINING TOMORROW'S LEADERS

TODAY!

This program gives young people the opportunity to expand their leadership potential almost exponentially.

— *Jim Markham, Principal*

As school leaders, teachers and administrators we can work all day to try to improve the impact of the school, but we can't do anything without valuable student leadership.

— *Mary Anne Charron, Principal*

Our students train other students with LeaderNext—it's a trainer of trainers.

— *Dr. Charles Buchanan, Principal*

I use this program in every aspect of life, at home, church, my job, whatever. You don't get any better than this. I love it.

— *Adrien, Student*

Tomorrow's decision makers are today's students. The future of education, business, government, and philanthropy resides in the hands of high school juniors and seniors who possess the ability not only to practice, but also to pass on the critical characteristics and skills of leadership. LeaderNext™ is an interactive adventure designed to develop the next generation of Legacy Leaders in high schools nationwide.

Unique Features

LeaderNext uses cutting-edge media to illustrate essential leadership characteristics and skills in a context that is clear and memorable to a young audience. It is suitable for middle and high school grades. Each LeaderNext concept includes short clips from popular movies. These stimulate topical discussion, along with student comments, teacher input, and challenging student workbook exercises.
